

## UNITED STATES SENATOR DEAD

**M. N. Johnson of North Dakota Dies in Fargo.**

### VICTIM OF BRIGHT'S DISEASE

Had Been a Sufferer From the Fatal Malady for a Number of Years—Underwent an Operation for a Nasal Trouble a Week Ago and Was Thought to Be Doing Well—Death Came Very Suddenly.

Fargo, N. D., Oct. 22.—United States Senator Martin N. Johnson of this state succumbed to acute Bright's disease at his hotel in this city.

A week ago he submitted to a second operation for a nasal trouble, and was thought to be doing well. He had been a sufferer from the fatal disease for years, and had complained the past two days. But reports had been reassuring.

He was suddenly attacked late in the afternoon, gradually grew worse and died without warning. His wife was in the death chamber, also his brother, a resident of this city.

The body will be taken to his home at Petersburg, Nelson county, for interment.

He was fifty-nine years old, and was born on a farm in Racine county, Wisconsin, and was the son of Rev. Nelson Johnson, a native of Norway.

Senator Johnson was a graduate of the Wisconsin state university. He came to this state in 1882, and devoted

MARTIN N. JOHNSON.

all his attention to farming. He was a member of the constitutional convention of 1889.

He was a candidate for United States senator and received the Republican party vote in caucus, but was defeated in a joint session in 1890. He was sent to congress, and three times renominated by acclamation, making a service of eight years in the lower house.

He was a devoted member of the Methodist Episcopal church and had been a member of the general conference of that body. Senator Johnson was elected at the last general election for a full term.

The vacancy will be filled by Governor Burke, a Democrat, the appointment to stand until the next general election.

The demise complicates state politics to a considerable extent, as it creates senatorial contests on both the long and the short terms. The term of Senator McCumber, the senior senator, expires in March, 1911.

### PRESIDENT INVITED TO FLY

Will Be Given Chance to Ride in Airship in Savannah, Ga.

Savannah, Ga., Oct. 22.—An invitation will be extended to President Taft and Governor Brown of Georgia to make a flight in an airship while they are here Nov. 5. Two airships will be here for racing purposes at the Savannah fall festival.

### RIZZO SENTENCED TO DEATH

Italian Murderer Must Pay Penalty in Electric Chair.

Utica, N. Y., Oct. 22.—Theodore Rizzo must die in the electric chair for the murder of Theresa Procopio and Ferdinando Infusino, the Italian children he lured from their homes and shot to death in a ravine in this city Sept. 12, last.

The jurors required but one formal ballot to reach their finding that Rizzo was guilty of first degree murder.

Rizzo was sentenced to die in Auburn prison during the week beginning Nov. 21.

### ONE ACCIDENT IS FATAL

Two Lumber Company Employees Injured in Minneapolis.

Minneapolis, Oct. 22.—Two employees of the C. A. Smith Lumber company met with accidents, one of which proved fatal.

O. Bakken, fifty-five years of age, was on his way home from work when run down by a Soo switch engine. Both legs were severed, and he died shortly afterward from loss of blood.

Caught in the belting of a planing machine and carried to the ceiling, Victor Johnson was terribly mangled. His left leg was caught in a pulley and torn from his body. Besides, he sustained cuts and bruises about the head.

He is now in a precarious condition in St. Barnabas hospital.

## WOODSMAN SHOTS UP WISCONSIN TOWN

Fires Into a Crowd, But Fails to Hit Anybody.

Rhineland, Wis., Oct. 22.—A woodsman, John Reynolds, armed with a 44-caliber rifle, held up the town of Goodman, fifty-five miles east of here on the Soo road, after a disagreement over his pay, and is believed to be fleeing toward Rhineland before a gathering posse.

Reynolds entered the business office of the Goodman Lumber company, with whom he had been employed, and received his pay, which was unsatisfactory to him.

Later he returned with a rifle. He pointed the gun at Ralph Goodman, manager of the company, and pulled the trigger several times, but a cartridge caught in the breach of the weapon and it would not fire.

He rushed from the building into an adjacent hotel and repaired the rifle, returning to the street, where he dispersed the crowd with a few ineffective shots and ran into the nearby woods. From different positions in the trees he pumped bullets down the main street.

After the shots had ceased a posse armed and pursued, but has been unable to locate the woodsman in the forest.

### BEING WAGED IN WISCONSIN

Vigorous Campaign to Suppress Liquor Traffic Among Indians.

Washington, Oct. 22.—The Indian secret service for the suppression of liquor traffic among Indians is making a vigorous campaign in Wisconsin. Notwithstanding local prejudice encountered and active work of organized liquor interests, considerable results are being reported from smaller towns, in which roaming Indians have secured supplies of liquor. T. B. Wilson, superintendent of the Indian school at Keshena, wired the Indian office that out of twenty-four liquor cases presented to the federal grand jury at Milwaukee, twenty-three true bills were returned. Considering the small profit from sales, however, as compared to the heavy fines and the possibility of imprisonment, the Indian office believes a vigorous campaign will soon produce satisfactory results.

### MUST ELIMINATE THE SMOKE

Railroads May Have to Electrify Lines in Chicago.

Chicago, Oct. 22.—Chicago has served upon the Illinois Central and upon the other railroads, too, an ultimatum to electrify their lines or eliminate the smoke by equally efficient means or suffer the consequences. It was positive and in the form of the first rough draft of an ordinance which practically will compel electrification, and which will be pushed through the city council at the earliest possible moment. Six months is allowed the railroad companies to get ready and two years is given them to complete their work. If their plans are not filed and approved within the first-named period, they will be subject to a penalty of \$100 a day each for each day's delay. If the work is not done in the specified time the railroads will have to pay even more dearly.

### ELUDE THE SHERIFF'S POSSE

Wisconsin Bank Robbers Still at Large.

Minocqua, Wis., Oct. 22.—The five desperadoes who robbed the State bank of Minocqua of \$10,000 early Wednesday morning have eluded the attempts of the sheriff's posse to capture them.

A man with a rifle and answering the description of the leader of the robbers walked into the telegraph station of Tomahawk junction about twenty miles south of here and asked the agent there for a time table. The agent saw him join four other armed men on the verge of nearby woods.

Actor Stricken Blind on Stage.

Toronto, Ont., Oct. 22.—Jules Kussell, an actor at the Majestic Music hall, was suddenly stricken blind during his sketch, and finished the act without allowing the audience to know of his alarming condition. There is slight hope for partial recovery.

Killed by a Plank.

St. Paul, Oct. 22.—Phillip Foley of this city was almost instantly killed when a plank fell from the top of the new St. Paul hotel and struck him on the top of the head, fracturing the skull at the base. He was hurried to St. Joseph's hospital, but died in the ambulance.

Ends Life With Gas.

Minneapolis, Oct. 22.—Discouraged because of inability to obtain employment, and being without funds, Stephen J. Moulton, rooming at 107 Thirteenth street south, ended his life by inhaling gas.

## PRENDERGAST NOW PREMIER

Opposition Leader Forms New Spanish Ministry.

### RESULT OF BITTER ATTACKS

Cabinet Which Was Formed Under the Premiership of Antonio Maura Forced to Resign—One of the First Acts of the New Government Will Be to Make General Weyler Commander of the Spanish Forces in Morocco.

Madrid, Oct. 22.—The Spanish cabinet, which was formed Jan. 25, 1907 under the premiership of Antonio Maura, resigned as a result of the bitter attacks made against the government by the former premier, Moret y Prendergast, representing a powerful opposition.

At a conference with King Alfonso, Premier Maura told the king that, in the face of Senor Moret's statement that the opposition would refuse to discuss even the most urgent measures, he had no option but to resign. He asked, however, the members of the majority to support the new ministry.

Moret y Prendergast formed a new ministry, himself assuming the post of premier and minister of the interior.

When the president of the chamber of deputies made the announcement of the cabinet's resignation it was received with such an ear-splitting uproar that he was forced to adjourn the sitting.

It is understood that the new government's programme includes the re-establishment of the constitutional guarantees in Barcelona and Gerona, the suppression of the censorship, acceleration of the campaign in the Riff region, amnesty for political offenses, the publication of the documents in the Ferrer case and the holding of elections within a few months.

It is believed that one of the first acts of the government will be to replace General Marina, commander of the Spanish forces in Morocco, by General Weyler.

### VISITS THE TOWN OF TAFT

President Thanks the Only One That Voted Solidly for Him.

Gregory, Tex., Oct. 22.—The one town in Texas that voted unanimously for President Taft at the national election received his thanks in person. Appropriately named Taft, it is a community of about 800 men, women and children, who are employed about the industrial plant of the Charles P. Taft ranch.

The president visited Taft and saw at work a cotton gin which handles the cotton grown on his brother's ranch. He visited the slaughter house, where are killed the cattle raised on the ranch; the tannery, where the hides produced on the ranch are treated, and the dairy, and he looked on while one of the big steam plows was set to work turning up furrows on the land which belongs to his brother for miles and miles around.

In the dairy the president ate a large portion of ice cream made from the cream produced on his brother's place, but when they went at him with a bowl of buttermilk he waved it off.

The whistles blow, bells were rung, and the cowboys on the ranch let loose a series of "yip, yip, yips" when the president, accompanied by his party, reached Taft in automobiles. The schoolhouse was visited and the president made a brief speech to the assembled company.

### ELUDE THE SHERIFF'S POSSE

Wisconsin Bank Robbers Still at Large.

Minocqua, Wis., Oct. 22.—The five desperadoes who robbed the State bank of Minocqua of \$10,000 early Wednesday morning have eluded the attempts of the sheriff's posse to capture them.

A man with a rifle and answering the description of the leader of the robbers walked into the telegraph station of Tomahawk junction about twenty miles south of here and asked the agent there for a time table. The agent saw him join four other armed men on the verge of nearby woods.

### ELUDE THE SHERIFF'S POSSE

Wisconsin Bank Robbers Still at Large.

Minocqua, Wis., Oct. 22.—The five desperadoes who robbed the State bank of Minocqua of \$10,000 early Wednesday morning have eluded the attempts of the sheriff's posse to capture them.

More Suits than ever

Are being worn this year

And we have the correct kinds

Fashion has made this a suit year, and it has been made a suit year by the very sensible styles that have been produced.

A woman can purchase a suit and expect to get her full money's worth of wear. They are made upon lines that will permit her to wear at a greater number of places than any other ever produced.

Our line is still a well selected one and should have your attention.

## SEVERE CYCLONE IN PENNSYLVANIA

Several Persons Injured and Much Property Damaged.

Corry, Pa., Oct. 22.—Cambridge Springs experienced the worst cyclone in the history of the state when the iron bridge across French creek, the big waterworks and filtration plant, a dozen houses and a part of the Hotel Riverside were destroyed, and much other property damaged. The loss may reach a quarter of a million dollars.

Among those injured are Homer Richardson, superintendent of the waterworks; Mrs. A. Blistone and Earl Hammond, and many others are also hurt, but not badly.

The whole town was panic-stricken while the storm raged.

In Meadville one man was fatally shocked by a falling live wire.

### TWO NEW YORK MEN ROBBED

Held Up by Pretty Women in Pittsburgh.

Pittsburgh, Oct. 22.—While one young woman held them safe with a revolver, another went through the clothing of H. C. Schultz and G. F. Lampton, both of New York, in the Leeds apartment.

The pretty highwaywomen, not being satisfied with the jewels and money yielded by the search, made Schultz, who looked the more prosperous and whose clothes had yielded a check book, sit down and write a check for \$500.

The men were turned into the street and told that they would be shot if they decided to stay about and see what would happen.

When they saw two young men whom they had seen earlier in the evening with the young ladies emerge from a side door of the house where the young women lived, the New Yorkers lost their tempers and shouted wildly for the police. An officer gave chase to the two men, firing many shots, but they escaped in the darkness.

The police then took Schultz and Lampton in charge as witnesses, and, entering the house, arrested Bessie Dean and Inez Maitland, who were identified by the two victims. The jewels and money of both men, as well as the check which Schultz had been forced to write with a gun at his ear, were found, as well also much other stuff, which leads the police to believe that the women are but two of a gang organized for blackmail and robbery.

### MINNESOTA BAPTISTS.

Winona, Minn., Oct. 22.—The Minnesota Baptist association will hold its convention next year in Woodland Park church, St. Paul, and in 1911 will meet in Duluth. Trustees for Pillsbury academy were chosen as follows: Uriah Rorabeck, Frank C. Nichols, F. K. Pratt, all of Minneapolis; S. C. Briggs, West Concord; Charles Jeffs, Owatonna. For the three-year term to fill a vacancy, W. C. Roberts, Owatonna.

### ENDS LIFE WITH GAS.

Minneapolis, Oct. 22.—Discouraged because of inability to obtain employment, and being without funds, Stephen J. Moulton, rooming at 107 Thirteenth street south, ended his life by inhaling gas.

## —Are your clothes insured?

If, when you buy a smart, dashing, stylish suit, you could know that it would keep on looking just that fine and shapely so long as it lasted, you would think a whole lot more of that suit, wouldn't you?

That's just why you should buy

**Clothcraft All-Wool Clothes**

for you get an insurance policy in the shape of a Signed Guarantee with each suit—and at no added cost. This Guarantee protects you against disappointment.

Clothcraft Clothes cost no more than common clothes—\$10 to \$25.

They are the ONLY line sold at these prices with this all-wool, shape-holding Guarantee.

Now do be sensible. Wear Clothcraft Clothes.

**J. F. Murphy & Co.**

**M. K. SWARTZ**

**You are Surely Interested in Bargains**

a card party Friday evening, Oct.  
22, at Culumbian Hall. Refresh-  
ments served and prizes given. Ad-  
mission 15c. 119-2f

### KNOWN AT DEERWOOD

Aged Couple Went From There to  
Duluth Where They Were Mar-  
ried on Thursday

Frederick Sorg, of Motley, and his  
bride who are both known at Deer-  
wood where he has relatives are the  
subjects of the following from the  
Duluth Herald of Thursday evening:

"Hand in hand, apparently as hap-  
py as though they were in their  
'teens, Caroline Atwood, aged 56,  
and Frederick Sorg, aged 78 years,  
strolled into the office of J. P. John-  
son, clerk of court, this morning and  
took out a marriage license. When  
they explained their mission, Mr.  
Johnson gasped twice and then is-  
sued the license. The couple wanted  
Judge Middlecoff of the probate court  
to perform the ceremony, but he was  
not in his office, so they went down  
town to have the knot tied.

"The occurrence caused a mild sen-  
sation and not a few smiles at the  
court house. The two old people  
were not averse to talking about  
themselves, and when their story was  
heard, the smiles that were of amuse-  
ment turned to smiles of good will.  
There is nothing romantic and some-  
thing pathetic in the marriage of the  
two in the winter of their life.

"The years have not dealt kindly  
with either. The man looks his full  
age, and the woman is older in ap-  
pearance than the years to which she  
confesses. They have had hard  
knocks and much trouble, and now  
they want to settle down on the man's  
little farm, near Staples, to enjoy  
the remaining years of their lives in  
quiet companionship.

"Mrs. Atwood is an old resident  
of the Head of the Lakes, having  
lived for many years at Superior. A  
few years ago she secured a divorce  
from her husband. She has eight  
children, but she says they refuse  
to do anything for her, and since her  
separation from her husband, she has  
been working out. A few months  
ago she went out to Staples to keep  
house for Mr. Sorg. The old man  
was lonely; the woman was lonely;  
so they decided to be joined together  
for the remainder of their lives.

"It is said to be the third matri-  
monial venture for Mr. Sorg. They  
came to Duluth to have the ceremony  
performed and this evening they will  
return to Staples."

If anyone should find the flag that  
Dr. Cook planted at the north pole,  
they would also find a bottle of  
Skaugs's Never-Cough, for that is  
the only medicine that would clear  
the lungs from cold. Skauge makes  
it, sells it and guarantees it for con-  
sumption, coughs and catarrh. 98tf

buy unless you want  
to.

### Johnson-Ostlund

The marriage of Fred Johnson of  
Minneapolis, and Hilda Ostlund of  
this city was solemnized at the Meth-  
odist Episcopal parsonage at 5:30  
yesterday afternoon. A few friends  
of the contracting parties witnessed  
the ceremony, the bride being assist-  
ed by her sister, Mrs. Annie Frost of  
N. E. Brainerd. The short ring ser-  
vice of the church was read by the  
Rev. Charles Fox Davis. The young  
couple will spend a few days in Brainerd,  
leaving for Minneapolis where  
they will make their future home and  
where Mr. Johnson's business inter-  
ests are.

Mrs. H. E. Bell, Wausau, Wis.,  
writes: "Before I commenced to take  
Foley's Kidney Pills I had severe  
pains in my back, could not sleep,  
and was greatly troubled with head-  
ache. The first few doses of Foley's  
Kidney Pills gave me relief and two  
bottles cured me. The quick results  
surprised me and I can honestly re-  
commend them." H. P. Dunn. mwf-w

### APPEALS TO LEGISLATURE

Convention of Illinois Mayors Wants  
New Law Passed.

Elgin, Ill., Oct. 22.—Mayors of over  
200 Illinois cities assembled in annual  
convention, in a resolution passed  
unanimously, appealed to the legisla-  
ture of the state to enact a law giving  
to every city and village in Illinois the  
right to decide by referendum vote  
whether or not it desired to try out  
the commission form of government.

There was little discussion over the  
merits of this resolution, but a warm  
fight developed over the effort of a  
Chicago man to have the convention  
go on record as commending the com-  
mission form of municipal govern-  
ment and of asking Governor Deneen  
to mention it in a call for a special  
session of the legislature. This res-  
olution was tabled.

PORTANT ACTIONS ARE COMMENCED

ral Suits Against Itasca Cedar & Tie Company Have Been Brought

AR AND TIES INVOLVED  
l of Suits Aggregate \$15,000 and Cover Transactions of Several Years

ny Henry Long, as attorney for plaintiffs, has commenced five suits against the Itasca Cedar & Tie company, for amounts aggregating the neighborhood of \$15,000. The suits, all but one grow out of sale of cedar and ties to the defendant company by Mr. McKinley and his associates.

he was brought by Wm. McKinley and Alice McKinley and seeks to recover \$533.50 the value of cedar and cross ties alleged to be unlawfully held by the defendants, together with \$100 damages.

he was brought by George A. William McKinley for the value of 15,235 railroad ties worth it alleged, \$4,058.78, and also for damages.

third was brought by Monks & Inley, and W. G. Hoerr, and is \$679.30, alleged to be due for goods and merchandise delivered to defendant between November 12, 1907, and November 12, 1907.

he fourth was also brought by A. and Wm. McKinley, and seeks to recover \$2521.68, alleged to be on an account.

he fifth is brought by Theodore Lake and Jay Henry Long and seeks triple damages, amounting to \$10 for the alleged destruction of work along the Mississippi above and near Brainerd, valued at \$1500.

is expected that all the suits come on for hearing at the December term of the district court in city.

NOTICE

ndly inform the people of your through your valuable columns I will be in Brainerd for two or three weeks beginning next Monday, on my regular tuning trip. I am manager of that territory for Raudenbush & Sons' piano factory, and anyone wanting a high class piano direct from the factory call on or address me at the City C. T. Gleason. 117-13

LULU LEFT TOWN

Former Bartender for Andy Hefferin Plead Guilty to Keeping House of ill Fame

Lulu Adams, who has been tending bar for Andy Hefferin in his "Malt joint" on Front street, came to grief last night. She had secured furniture and opened an establishment near the hay market and last night a man went there seeking accommodations. He succeeded and matters were arranged apparently satisfactorily when the man said he had a friend outside who also would like to get in on the game. The woman consented and in stepped Chief Quinn. Officer Hurley then threw off his disguise and the woman was turned over to the mercies of Sheriff Reid. She was up in municipal court and plead not guilty, but afterwards changed her plea upon the recommendation of the city attorney that she be permitted to leave town under suspended sentence. Judge Warner imposed a fine of \$25 or 25 days in jail, which he suspended on condition that she leave town on the noon train, which she did.

Fall colds are quickly cured by Foley's Honey and Tar, the great throat and lung remedy. The genuine contains no harmful drugs. H. P. Dunn mwf-w

Foot Ball Tomorrow

The game with Aitkin which was to have been played last Saturday will be played this Saturday. The boys who were behind in their studies have worked hard and have all succeeded in making up their work with the exception of Brady and O'Connors. While the team will be weakened by the loss of these two men, the boys are confident of beating their old rivals from Aitkin. Trent who was unable to play in the Duluth game will be back at right half, with Captain Barron and Mahlum in the backfield, and Happy Alderman and Dusty Brooks at ends, the team should play a good offensive game. A meeting will be held at the High school for the purpose of organizing a rooting club. The game will be called at 3:30 in order to give the shop men a chance to see the game. The Brainerd team will in all probability line up as follows:  
Centre—Mahood.  
Guards—Brooks and Bergreen.  
Tackles—Swanson and Vogel.  
Ends—Alderman and Brooks.  
Halves—Trent and Barron (Capt).  
Quarterback—Purdy.  
Fullback—Mahlum.

A dandy new assortment of rich American Cut Glass, in the latest patterns and moulds, and at prices that will astonish you—at D. M. Clark & Co's. 77-1f

USUALLY ONE DOSE ENDS INDIGESTION

Heartburn, Gas, Dyspepsia and other Misery Goes Before you Realize it.

RELIEF IS WAITING FOR YOU  
Out-of-Order Stomachs Feel Fine Five Minutes After Taking a Little Diapepsin

If your meals don't fit comfortably, or you feel bloated after eating and you believe it is the food which fills you; if what little you eat lies like a lump of lead on your stomach; if there is difficulty in breathing after eating, eructations of sour, undigested food and acid, heartburn, brash or a belching of gas, you can make up your mind that you need something to stop food fermentation and cure indigestion.

To make every bite of food you eat aid in the nourishment and strength of your body, you must rid your stomach of poisons, excessive acid and stomach gas which sours your entire meal—interferes with digestion and causes so many sufferers of dyspepsia, sick headache, biliousness, constipation, griping, etc. Your case is no different—you are a stomach sufferer, though you may call it by some other name; your real and only trouble is that what you eat does not digest, but quickly ferments and sours, producing almost any unhealthy condition.

A case of Pape's Diapepsin will cost 50 cents at any pharmacy here, and will convince any stomach sufferer five minutes after taking a single dose that fermentation and sour stomach is causing the misery of indigestion.

No matter what you call your trouble, catarrh of the Stomach, nervousness or gastritis, or by any other name—always remember that a certain cure is waiting at any drug store the moment you decide to begin its use.

Pape's Diapepsin will regulate any out-of-order stomach within five minutes and digest promptly, without any fuss or discomfort, all of any kind of food you eat.

CUYUNA RANGE R.R. CHANGES ROUTE

New Railroad Will Run Closer to the Town of Deerwood Than was at First Anticipated

SO SAYS CHIEF ENGINEER HUSS

Mr. Huss Expects Trains Will be Running into Cuyuna by the 1st of December

Geo. M. Huss, chief engineer of the Cuyuna Range railroad and division engineer of the Thief River Falls branch of the Soo Line, was in Brainerd today on his way to Minneapolis to visit his family. He states that the work on the Cuyuna Range railroad was progressing very favorably. He expects the cars will be running into Cuyuna by December 1st. He stated that he hardly thought the grading to Crosby would be completed this fall and of course if it was not, there would be no trains run into that town until some time next summer. He stated that the new line was being run south of Deerwood, swinging closer to the present town and though the exact spot for the depot of the new road had not as yet been decided upon, it would be about 1000 feet nearly due south of the overhead roadway being built by the Northern Pacific railway a few hundred feet east of their depot.

Mr. Huss stated that all reports as to surveys having been made for the road west of section 30, town of Deerwood, are false. He said that a preliminary line might be run as far west as the Pichands-Mather shaft on section 8, Nokay Lake, the coming winter, but beyond that, there would be nothing done toward extending the south line beyond the Chescutawney location.

The contracts were all let, he said for the grading of the Thief River Falls line from Moose Lake to the Leech Lake dam, but beyond that, nothing practically had been done looking toward the actual construction of the line.

State of Ohio, City of Toledo, Lucas County—ss.

Frank J. Cheney makes oath that he is senior partner of the firm of P. J. Cheney & Co., doing business in the city of Toledo, county and state aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FOR TREATMENT OF CANCER

Radium Institute to Be Established in New York.

New York, Oct. 22.—Arrangements are being perfected in New York for the incorporation of the American Radium Institute, to be devoted to the treatment of cancer and similar diseases. Those who are interested in the enterprise are eminent surgeons, chemists, physicians and other professional men, and it is intended to minister to deserving patients free of charge.

The Institute will be conducted much on the same plan as similar ones in Paris and London. The work will be divided into various sections, such as chemistry, physics, medicine and botany, with an expert in charge, and it is believed that for experiments the laboratories of the Rockefeller Institute will be available.

Supplies of pitchblende for manufacture are to be drawn from Colorado and other Western localities where the initial processes of extracting the radium will be conducted. It is planned to have a factory in New York for the preparation of the powerful agent, and also a hospital.

It is announced that the Institute is not in any sense commercial and that several of the scientists who are interested in it are not only giving their services free, but are contributing of their own means to the fund which will be required to establish the plant. The co-operation of several wealthy men has been secured.

The supply of radium is extremely limited. The market price is \$1,000 for ten milligrams, or approximately \$2,700,000 a pound.

Your Collars Shaped Without Breaking Them

It is impossible to break or damage a turn-down collar while shaping it by our new and improved method. The collar reaches the shaping department flat. It is first run through a small machine which deposits a fine penetrating stream of water along the seam, thoroughly softening the starch in the linen. The collar is then bent over, the edge ironed smooth and dry, and curled into shape. The dampened seam prevents any strain upon the linen when the collar is folded. We save your linen.

### Your Daily Task

of carrying up coal for use in the kitchen will not be so heavy if you burn our coal. For our coal is the free burning kind which leaves no klinkers and few cinders. It burns right down to ashes. That means you need less of it than ordinary coal. Order a ton or so and you'll have less to carry up daily.

JOHN LARSON

## INTENDED TO GO TO ALASKA

### Murdered Butcher Planned to Take Long Journey.

#### YOUNG DAUGHTER TESTIFIES

Refuses to Admit That the Proposed Trip to the Klondike Was the Subject of Discussion in Her Father's Room the Night of His Murder—Admits Being in His Bedroom the Night the Crime Was Committed.

St. Paul, Oct. 22.—Louis Arbogast had planned to start on a trip to Alaska three weeks from the day he was murdered in his bedroom at his home, 286 West Seventh street, May 13, last. Flora and her mother were to accompany him.

This long-looked for piece of information regarding the Arbogast family affairs was actually forced out of the dead butcher's youngest daughter, "Babe," by County Attorney O'Brien in the closing minutes of the afternoon session of her mother's murder trial.

The girl was anything but a willing witness and seemed to follow her older sisters in forgetting to remember many things. She, like her sisters Ida and Minnie, said that she had been so sound asleep the night her father was murdered she did not hear anything unusual happening in the house.

The trip to Alaska mentioned by "Babe" Arbogast may help to develop a feature in connection with the murder of her father which the county attorney has been working to establish. At the time of the murder of Louis Arbogast the trip to the Klondike was reported to have been one of the probable causes which led to the crime. It was difficult to ascertain any tangible information then, although it was generally reported that the contemplated journey was vigorously opposed by Mrs. Arbogast and other members of the family.

#### Girl a Reluctant Witness.

"Babe" or Flora Arbogast was a slightly more tractable witness than either Ida or Minnie. She admitted a few circumstances which they asserted they knew nothing about, although every admission or statement of any kind elicited by the county attorney had to be paid out.

"Babe" Arbogast caused two surprises during the short half hour she was on the witness stand. She admitted having been in the bedroom with her father and mother the night of the murder. She also managed to let slip the proposed trip to the Klondike, but no amount of questioning would induce her to admit that it had been the subject of discussion in her father's room that night.

Outside of the Alaskan portion of "Babe's" reluctant statements, the most important feature of her testimony related to a visit to her father's room at 10 o'clock the night of the murder, when she said she found her mother in bed talking with Louise, who was sitting near the door of the room. "Babe" had been out to visit a friend, and said that she went straight upstairs upon returning home at 10 o'clock. Ida Arbogast testified that "Babe" was in bed at 9:30 o'clock that night.

"Babe's" statement about her mother was the first tangible bit of evidence that has been given concerning Mrs. Arbogast's whereabouts the night of the murder.

Police Sergeant Beaubien testified to having found an empty revolver in the closet of the room where Louis Arbogast was murdered.

Minnie Arbogast told how she tried to smother the flames with a rug and help her father.

Bloody toe marks near Arbogast's bedside were shown in photographs submitted to the jury by the county attorney.

#### SAY RATES ARE EXCESSIVE

Minnesota Manufacturers Complain to Commerce Commission.

Washington, Oct. 22.—Alleging that class and commodity rates from various Eastern points are excessive, unjust and discriminatory, Frederick & Campe Co. and forty other merchants and manufacturers of Red Wing, Minn., filed a complaint with the Interstate commission against the New York, New Haven and Hartford and twenty-five other railroad companies.

The originating points named in the complaint are Boston, New York, Philadelphia, Ogdensburg, Buffalo and Burlington, Vt.

The complainants say that by reason of these excessive rates they are placed at a disadvantage in marketing their various products. Each complainant makes a specific claim for a refund of overcharges, 60 cents being the lowest amount claimed by any one firm, and \$51.60 the highest.

#### Forty Thousand Will Strike.

New York, Oct. 22.—A strike of the 40,000 members of the New York Ladies' Waistmakers' union for higher wages and recognition of the union was voted at an executive meeting of the organization. At present the waistmakers get from \$8 to \$12 per week. They ask for a 10 per cent increase and closed shop.

## ELECTS NORTHWESTERN MEN

Masonic Council Confers Highest Degree Upon Them.

Washington, Oct. 22.—At a meeting of the supreme council of Scottish Rite Masons a large number of members of that order were elected to the honorary thirty-third degree, the highest degree in that body. Among them were several from Northwestern states, including Henry Deutsch, John Leslie and Timothy V. Moreau of Minneapolis; Frank E. Gartside of Winona, census supervisor for the First congressional district; Judge Alexander Cant and Jesse Norton of Duluth and John Fishel of St. Paul.

Those from other Northwestern states who were elected to the thirty-third degree are as follows:

North Dakota—Robert Lewis, Fargo; Peter Picton, Fargo.

South Dakota—Charles O. Bailey, Sioux Falls; Ivor D. Davis, Aberdeen; Joseph W. S. Guild, Hecla; Albo Holmes, Deadwood; William S. Stockwell, Yankton.

Iowa—Franklin P. Batchelder, Lyons; Frank O. Brayton, Lyons; Henry L. Carroll, Des Moines; Davis S. Chamberlain, Des Moines; Charles H. Cogswell, Cedar Rapids; Oscar J. Hoberg, Sioux City; Arthur S. Lawrence, Muscatine; Clarence P. Kilbourne, Sioux City; George Martin, Clinton; Charles F. Curtis, Clinton; Frederick E. Batchelder, Clinton; Willis S. Gardiner, Clinton; Lauren C. Eastman, Clinton; William J. Konvalinka, Cedar Rapids.

Montana—John A. Donovan, Butte; Frederick L. Melchar, Butte; Ernest J. Schefel, Butte; Elmer J. Carter, Missoula; Joseph A. Hyde, Butte.

## HEALER SCHLATTER IS DEAD

Had Been a Charge on the City of Hastings, Neb.

Hastings, Neb., Oct. 22.—A man found dead in his room here was known in Hastings as Charles M. McLean, but papers in his room indicate that he was Francis Schlatter, the healer.

The mystery surrounding the death was partially cleared by the discovery of a family album containing a picture of the dead man taken in 1871. This was inscribed Dr. Charles McLean. A note was also found naming David McNaughton of Chicago as the custodian of his effects.

His literature and advertising circulars declare him to be "Francis Schlatter, divine healer." A receipt for an envelope deposited with the Bay State Trust Company of Boston was also found. This was placed in the care of the company last February.

For three weeks the man had been kept at the expense of the city. He claimed that he was the original healer who appeared in Denver and averred that he caused the report to be spread abroad that he had perished in the desert.

He undertook to cure by divine healing in several towns last summer.

Pictures, newspaper clippings and magazine illustrations seem to indicate that he is the same man who caused the uproar at Denver several years ago.

#### Bova Sentenced.

St. Paul, Oct. 22.—Antonina Bova, convicted of manslaughter in the first degree for slaying Vincenza Megna last April, was sentenced by Judge Orr to serve an indeterminate sentence of from five to twenty years in the state penitentiary at Stillwater. Bova was apparently little concerned when brought into court for sentence. Nov. 1 was the date set for hearing of the motion for a new trial.

## GRAIN AND PROVISION PRICES

#### Minneapolis Wheat.

Minneapolis, Oct. 21.—Wheat—Dec., \$1.02½; May, \$1.04½@1.04½. On track—No. 1 hard, \$1.05½@1.05½; No. 1 Northern, \$1.04½@1.04½; No. 2 Northern, \$1.02½@1.02½.

Sheep—Native, \$2.40@4.80; yearlings, \$4.40@5.25; lambs, \$4.25@7.20.

## WILKES LAND SEEKER

Philadelphian Plans Expedition to Region Around South Pole.

### HOPES TO GO IN SEPTEMBER

Dr. Henry E. Wetherill, Traveler and Inventor, Says It Is America's Duty to Substantiate Claim to Vast Territory Lying Within Antarctic Circle.

Now that the north pole has been discovered the question is arising in the minds of explorers, What of the south pole?

Among those who are planning to go south is Dr. Henry E. Wetherill of Philadelphia, a surgeon and inspector of rifle practice in the Pennsylvania naval reserves, once a companion of Commander Peary in arctic travel and an inventor of scientific instruments.

Dr. Wetherill is preparing to explore the region surrounding the south pole known as Wilkes Land, which, he said recently, was the most fascinating field for the explorer today. "It is a vast territory," he explained, "lying wholly within the antarctic circle and in vastness can be said to be at least twice the size of the United States. Commander Wilkes of the United States navy discovered it, approaching from the south of Australia in 1840. Lieutenant Shackleton crossed a section of this land on his recent dash toward the south pole, entering upon it, as well as I can understand, from a point somewhat to the southward of South America.

#### Fertile Field For Explorers.

"This great waste affords a fertile field for the explorer because it is land and upon it there is a chance of discovering interesting conditions. There is a comparatively small amount of land in the north polar regions, which makes that territory of less importance, to my way of thinking, than this region surrounding the south pole."

Dr. Wetherill pointed out the fact that it had been a question in the minds of some as to whether Commander Wilkes actually discovered this continent which bears his name, and he thinks that since the north pole has been discovered it is the duty of Americans to send an expedition south to substantiate the American claim and in a way to vindicate Wilkes.

"Such a plan," said Dr. Wetherill, "has been taking shape in the minds of certain members of American scientific societies for years, but now the matter seems to be taking definite form. Edwin Swift Balch, a member of the Philadelphia Philosophical society and a leading authority on south polar conditions, has applied to the Philadelphia Geographical society, and, I think, to two other societies as well, for support in bringing the question to the attention of congress during the coming term. I understand that congress will be asked to appropriate money for the expedition, which I should think would require about \$700,000."

#### Would Take Three Ships.

Dr. Wetherill has made formal application for the command of the expedition should one be formed, and in the meantime he is going ahead with his plans, believing that the funds will be forthcoming. He would take three small ships, to be built after the model of the magnet survey ship Carnegie, of the auxiliary type. One of these would be used as a supply ship, a second for cruising at sea out of danger of the ice fields, but within call by wireless in case anything should happen to the third ship, which he would personally command and which would be used for the actual work of exploration.

Dr. Wetherill has been for years interested in inventing instruments for scientific use. He has recently invented a patent sextant, also a table for taking Greenwich time by what he calls a lunar declination—that is, to determine longitude by an observation of the moon.

He explained that lunar observations for longitude were made in the past, but the task was one of such complexity that few navigators were equal to it. He has devised a simplified method which he considers to be one of his most important contributions to the science of navigation. By the use of this table, he said, longitude could be determined by a lunar observation in fifteen minutes.

#### The Stellar Sextant.

The new sextant which Dr. Wetherill has invented contains, instead of two reflectors of the old type, only one reflector, which makes it of especial value in polar work, due to the fact that a star can be much more readily observed through it. Dr. Wetherill not only devised this instrument, but he actually built it, using, he said, the model of an old quadrant. Because of its service to navigation by the stars he has named it the stellar sextant.

Dr. Wetherill has traveled extensively. He accompanied Dr. Henry G. Bryant when the latter went to Greenland in 1894 to try to find the whereabouts of the naturalists Bjorling and Kalestanius, who were lost in the north. On that trip Peary and party, including Dr. Frederick A. Cook, were brought out of the arctic.

Rugged of appearance and enthusiastic, Dr. Wetherill has the typical explorer's personality. He is looking forward keenly to the forthcoming expedition, which he believes he will command. The proper time to start for Wilkes Land, he said, would be next September.

## INVESTIGATION IN ST. PAUL

Federal Agents Look for Peonage in Minnesota.

St. Paul, Oct. 22.—Whether a system of peonage exists in the lumber mining camps of Minnesota or where in the state in violation of federal law, is a question on which a committee of three, representing immigration commission under immigration bureau of the United States department of commerce labor at Washington, took testimony at the federal building in this city.

The committee consisted of John Elder of Washington, D. C., chairman, Congressman John L. Burnett of Panama and Charles P. Neill of Chicago. During the morning a number of federal officers were examined their testimony made a matter of record to be reported to the commission.

A number of local officers and others from outside the city were peonaged to come to St. Paul and testify. The committee will go to Fairbury to Nebraska and thence to Pacific coast.

The proceedings here were held closed doors and strictly executive, who had to do with the affair were exceedingly reticent.

C. R. Kluger, the jeweler, 10 Virginia Ave., Indianapolis, Ind., writes: "I was so weak from kidney trouble that I could hardly walk hundred feet. Four bottles of Foley's Kidney Remedy cleared my complexion, cured my backache and irregularities disappeared, and I now attend to business every day and recommend Foley's Kidney Remedy to all sufferers, as it cured after the doctors and other remedies had failed." H. P. Dunn mwa

## WANTS

Notices under this head will be charged for at the rate of one cent per word for the first insertion and one-half a cent a word for each subsequent insertion, strictly cash advance, but no ad will be taken less than fifteen cents.

WANTED—Good girl for general housework. Good wages, no washing. Mrs. J. A. Thabes, 419 H Street. 120t

## The Difference shows in the Baking

A GREAT many women have an idea that flour is all just about alike—that the flour you get used to is the one you like best and have the best "luck" with—that is because they have never used

## OCCIDENT FLOUR

They don't know the gulf between Occident and ordinary flours—

A difference that shows plainly in the baking. The price of Occident Flour is a few cents higher per sack than ordinary kinds.

That means nothing to you after you have proven on baking day how well it is worth that difference.

But it means everything to the millers.

That few cents difference enables them to raise the standard of Occident Flour to "highest grade in the world"—from wheat to package.

The millers prove that before Occident Flour leaves the mills.

You find it out when you use Occident for your baked stuff.

Try it and judge it by results.

## Here is the Fairest Trial Offer Ever Made

Use one sack of Occident Flour in your baking. That is better than reams of printed argument. If it is not your kind, it costs you nothing.

Order a trial sack of Occident from your grocer. Bake out of it as many times as you please—

Before that sack is gone, you will be convinced that Occident suits you better in every way than any other flour you ever used—

Better for pastry, muffins, biscuit, bread—better and surer results with all kinds of baked stuff.

If not—you have only to go to the grocer and tell him so. He is authorized to refund without argument the full purchase price of any package of Occident Flour which you do not find satisfactory.

There couldn't be a more liberal offer than that—could there? Why not order it in time for your next baking
